

Mad 4 Music is pleased to welcome Saunder James as our first college intern. Saunder is a student at Baker University in Kansas and is majoring in Computer Science with minors in Music and Business. He will be with the company until the end of August and will be soaking up as much insight and information as he can from our outstanding team of editors. He has recently been observing the ASCAP scoring workshop with Michael T. Ryan and temp tracking with J.J. George. He also made a much-needed upgrade to the main computer system at the Mad 4 office.
